

Safety Data Sheet

In accordance with REGULATION (EU) 2020/878 of 18 June 2020

Amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Revision Date: 18.12.2023

Version: 4

Date of Issue: 19.12.2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1	Product Identifier	
	Chemical Name	Luminophore SFB 450 (NT)
	CAS Number:	Not applicable since product is a mixture/formulation
	EC number	Not applicable since product is a mixture/formulation
	Registration number	Constituents in the mixture are registered within REACH and/or exempted due to low volume exemption (<1 ton threshold)
	Nanoform Confirmation	Not applicable for liquid products
	UFI (Unique Formula Identifier)	--
1.2	Relevant identified uses of the substance or mixture and uses advised against	
	Relevant identified Uses of the substance	Used as an optical brightening agent for textiles.
	Uses advised against (where applicable)	No relevant information available
1.3	Details of the supplier of the safety datasheet	
	Manufacturer/ Supplier:	United Specialities (P) Ltd. 501, Man Excellenza, Opposite Pawan Hans, S.V. Road, Vile Parle (West) Mumbai 400056, INDIA Tel No: +91-22-26138053/54/55
	Further information obtainable from:	Product safety department Mr. Devansh Valia: dvv@unitedspecialities.com Mr. Shaunak Mehta: shaunak@unitedspecialities.com OR Details: Sustainability Support Services (Europe) AB Ideon Science Park, Scheelevägen 17, Beta 5 223 70 Lund, Sweden
1.4	Emergency telephone number:	Emergency telephone number of Manufacturer: +91-22-26138053/54/55. Other Comments (e.g., language(s) of the phone service): English
SECTION 2: Hazards identification		
2.1	Classification of the substance/mixture according to Regulation (EC) No: 1272/2008 i.e., CLP	
	Classification as per CLP regulation	▪ Eye Irrit. 2 ▪ Skin Sens. 1
2.2	Label elements	
	Labeling according to Regulation (EC) No 1272/2008	

Safety Data Sheet

In accordance with REGULATION (EU) 2020/878 of 18 June 2020

Amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Revision Date: 18.12.2023

Version: 4

Date of Issue: 19.12.2023

		GHS07			
	Signal word	WARNING			
	Hazard statements	H317: May cause an allergic skin reaction H319: Causes serious eye irritation			
	Precautionary statements	P280: Wear protective gloves/protective clothing/eye protection/face protection. P302 + P352: IF ON SKIN: Wash with plenty of water and soap. P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P501: Dispose of contents/container in accordance with local/ regional/ national/international regulation (As best practice)			
2.3	Other hazards:				
	PBT:	No data available for mixture			
	vPvB:	No data available for mixture			
	SVHC	The constituents of the formulation are not listed as SVHC			
	Endocrine disrupting property	None of the constituent in the mixture are listed in ECHA’s endocrine disruptor assessment list.			
SECTION 3: Composition/information on ingredients					
3.2	Chemical characterization: Formulation				
	Mixture CAS No.	Not applicable since the product is a formulation			
	Hazard determining constituents in the mixture.	Ingredient identity	Composition	Ingredient classification according to CLP	Concentration Limit % (SCL)/ M-factor/ ATE
		CAS No: 166736-08 -9 EC No: 605-450-7 Chemical Name: 2-propylheptanol ethoxylated, propoxylated Index No: Not available Registration No: Total EU tonnage is < 1 t/a.	1.50%	Acute Tox. 4 (oral) Eye Dam. 1	Not available
		CAS No: 69011-36-5 EC No: 500-241-6 Chemical Name: Isotridecanol, ethoxylated Index No: Not available Registration No: Covered by supplier’s registration	1%	Acute Tox. 4 (oral) Eye Dam. 1	Not available
		CAS No: 2634-33-5, & 1310-73-2 EC No: 220-120-9 & 215-185-5	0.1875%	Acute Tox. 4 (oral) Skin Irrit. 2 Eye Dam. 1	

Safety Data Sheet

In accordance with REGULATION (EU) 2020/878 of 18 June 2020

Amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Revision Date: 18.12.2023

Version: 4

Date of Issue: 19.12.2023

		Chemical Name: 1,2-benzisothiazol-3(2H)-one & Sodium hydroxide Index No: 613-088-00-6 & 011-002-00-6 Registration No: Covered by supplier's registration		Skin Sens. 1 Aquatic Acute 2 Aquatic Chronic 3	
		CAS No: 64-19-7 EC No: 200-580-7 Chemical Name: Acetic acid Index No: 607-002-00-6 Registration No: Covered by supplier's registration	<1%	Flam. Liq. 3 Skin Corr. 1A	Eye Irrit. 2: $10\% \leq C < 25\%$ Skin Corr. 1A: $C \geq 90\%$ Skin Corr. 1B: $25\% \leq C < 90\%$ Skin Irrit. 2: $10\% \leq C < 25\%$

	Ingredient nanoparticle characteristics as per Annex VI of regulation:	Not applicable
--	--	----------------

SECTION 4: First aid measures

4.1	Description of first aid measures	
	General information:	Immediately remove any clothing soiled by the product. Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area
	After inhalation:	If chemical is inhaled, move person into fresh air. Keep at rest. If not breathing, give artificial respiration. Consult a physician immediately.
	After skin contact:	Remove any contaminated clothing. Wash skin with soap and water for at least 15 minutes. Get medical attention if irritation develops/ persists. Wash clothing before reuse.
	After eye contact:	Rinse thoroughly with plenty of water for at least 15 minutes. Consult an ophthalmologist immediately.
	After swallowing:	Rinse mouth with water immediately (only if the person is conscious). Seek medical advice. Do not induce vomiting.
4.2	Most important symptoms and effects, both acute and delayed	Causes eye irritation & may cause an allergic skin reaction
	Information for doctor:	Treat symptomatically and supportively.
4.3	Indication of any immediate medical attention and special treatment needed	Follow instructions given in section 4.1 in case of skin and eye contact.

SECTION 5: Firefighting measures

5.1	Extinguishing media
-----	---------------------

Safety Data Sheet

In accordance with REGULATION (EU) 2020/878 of 18 June 2020

Amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Revision Date: 18.12.2023

Version: 4

Date of Issue: 19.12.2023

	Suitable extinguishing media:	Use fire extinguishing methods suitable to surrounding conditions. CO ₂ , extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
	Unsuitable extinguishing media:	High volume water jet
5.2	Special hazards arising from the substance	Emits toxic fumes of carbon oxides, nitrogen oxides and sulphur compounds under fire conditions.
5.3	Advice for firefighters	
	Protective equipment:	Wear proper protective equipment & clothing to prevent contact with skin and eyes. Wear self-contained breathing apparatus.
	Additional information	Avoid inhalation of fumes or vapors.
SECTION 6: Accidental release measures		
6.1	Personal precautions, protective equipment and emergency procedures	For non-emergency personnel: Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Avoid contact with the skin, eyes and clothing. Keep unprotected persons away. For emergency responders: Use personal protective equipment. Evacuate personnel to safe areas.
6.2	Environmental precautions:	Do not allow product to reach sewage system or any water course. Do not allow to penetrate the ground/soil.
6.3	Methods and material for containment and cleaning up	Soak up with inert absorbent material (e.g., sand, silica gel, acid binder, universal binder, sawdust). Sweep up and shovel. Use a spark-proof tool. Keep in suitable and closed containers for disposal in accordance with applicable laws and regulations.
6.4	Reference to other sections	See Section 8 for information on personal protection equipment. See Section 13 for disposal information.
SECTION 7: Handling and storage		
7.1	Precautions for safe handling	Ensure good ventilation/exhaust at the workplace Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Handle in accordance with good industrial hygiene and safety practice. Do not leave container open
	Information about fire- and explosion protection:	Keep ignition sources away –Do not smoke. Keep away from combustible material. Protect against electrostatic charges.
7.2	Conditions for safe storage, including any incompatibilities	
	Storage:	
	Requirements to be met by storerooms and receptacles:	Store in roofed places at ambient temperature Store product in its original container. Keep container tightly closed in a dry and well-ventilated place. Containers which are

Safety Data Sheet

In accordance with REGULATION (EU) 2020/878 of 18 June 2020

Amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Revision Date: 18.12.2023

Version: 4

Date of Issue: 19.12.2023

		opened must be carefully resealed and kept upright to prevent leakage.
	Information about storage in one common storage facility:	Store away from incompatible materials such as strong acids, alkali or oxidizing agents.
	Further information about storage conditions:	Store in roofed places at ambient temperature.
7.3	Specific end use(s)	Used as an optical brightening agent for textiles.
SECTION 8: Exposure controls/personal protection		
	Additional information about design of technical facilities:	Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor below their respective threshold limit value. Ensure that eyewash station and safety shower is proximal to the work-station location.
8.1	Control parameters	
	Ingredients with limit values that require monitoring at the workplace:	Acetic acid 8-hour exposure limit: 25 mg/m ³ (10 ppm) Short term exposure limit: 50 mg/m ³ (20 ppm) Acetic acid is present in very low percentage in the final mixture hence and does not require monitoring.
8.2	Exposure controls	
	General protective and hygienic measures:	Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.
	Respiratory protection:	Follow European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.
	Protection of hands:	 Protective gloves The glove material has to be impermeable and resistant to the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
	Material of gloves	Nitrile gloves, butyl rubber gloves are preferred over latex because of their chemical resistance, their tendency to visibly rip when punctured, and to prevent possible latex allergies
	Penetration time of glove material	The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
	Eye protection:	 Safety goggles

Safety Data Sheet

In accordance with REGULATION (EU) 2020/878 of 18 June 2020

Amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Revision Date: 18.12.2023

Version: 4

Date of Issue: 19.12.2023

	Body protection:	Impervious clothing, Apron, Boots
SECTION 9: Physical and chemical properties		
9.1	Information on basic physical and chemical properties	
	Form:	Liquid
	Colour:	According to product specifications
	Odour:	Characteristic
	pH	No available data
	Melting point	Not applicable since the product is liquid
	Boiling point	No available data
	Flashpoint:	Not applicable since the product is an aqueous formulation
	Flammability	Not flammable
	Auto ignition temperature	Not applicable since the product is an aqueous formulation
	Explosiveness	Not explosive
	Oxidizing properties	No available information
	Vapour pressure:	Not applicable since the product is an aqueous formulation
	Density:	No available data
	Solubility in/Miscibility with Water at 23 °C:	Miscible in water
	Partition coefficient (n-octanol/ water) at 20 °C:	No available data
	Viscosity	Not determined
9.2	Other information	
9.2.1	Information regarding physical hazard classes	Not applicable
9.2.2	Other safety characteristics	No further relevant information
SECTION 10: Stability and reactivity		
10.1	Reactivity	Reacts with oxidising agents, strong acids and alkalis.
10.2	Chemical stability	No decomposition if used according to specifications
10.3	Possibility of hazardous reactions	Product does not exhibit any dangerous reactions under normal conditions.
10.4	Conditions to avoid	Humidity Avoid temperatures below 10°C.
10.5	Incompatible materials:	Strong oxidizing agents, strong acids and alkalis
10.6	Hazardous decomposition	No hazardous decomposition products if stored and handled as prescribed Hazardous decomposition products formed under fire conditions. – Carbon, nitrogen and

Safety Data Sheet

In accordance with REGULATION (EU) 2020/878 of 18 June 2020

Amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Revision Date: 18.12.2023

Version: 4

Date of Issue: 19.12.2023

	products:	sulphur oxides		
SECTION 11: Toxicological information				
11.1	Information on toxicological effects			
	Acute toxicity: LD/LC50 values relevant for classification:	Oral	LD50	ATEmix = > 2000 mg/kg bw. (Considering the concentration limit of classified ingredients in mixture)
		Inhalation (dust)	LC50	No data available for mixture
		Dermal	LD50	No data available for mixture
	skin corrosion/ irritation	Not classified		
	serious eye damage/ irritation	Causes eye irritation (Category 2) (Considering the concentration limit of classified ingredient in mixture)		
	Sensitization:	Sensitizing to skin (Category 1) (Considering the concentration limit of classified ingredient in mixture)		
	Germ cell mutagenicity	No data available for mixture		
	Carcinogenicity	Not listed as a carcinogen in IARC		
	Reproductive toxicity	No data available for mixture.		
	Repeated dose toxicity (Oral)	No data available for mixture		
	Repeated dose toxicity (Inhalation)	No data available for mixture		
	Aspiration hazard.	No data available for mixture		
11.2	Information on other hazards			
	Endocrine disrupting properties	Not applicable, as described in subsection 2.3 above		
	Other information	No further relevant information available.		
SECTION 12: Ecological information (Mixture)				
12.1	Toxicity			
	Aquatic toxicity:	Fish	LC50 (96 hrs)	No available data.
		Invertebrate	EC50 (48hrs)	No available data.
		Algae	EC50 (72 hrs)	>100 mg/L (as per the summation method of CLP)
	The optical brightener is insoluble in water. Hence aquatic toxicity is unlikely.			
12.2	Persistence and degradability	No data available for mixture		
12.3	Bio-accumulative potential	No data available for mixture		
12.4	Mobility in soil	No data available for mixture		
	Additional ecological information	Do not allow product to reach ground water, water course or sewage system.		

Safety Data Sheet

In accordance with REGULATION (EU) 2020/878 of 18 June 2020

Amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Revision Date: 18.12.2023

Version: 4

Date of Issue: 19.12.2023

12.5	Results of PBT and vPvB assessment	
	PBT	No data available for mixture
	vPvB	No data available for mixture
12.6	Endocrine disrupting properties	Constituents of the mixture are not listed in ECHA's endocrine disruptor assessment list.
12.7	Other adverse effects	Not known as on date
SECTION 13: Disposal considerations		
13.1	Waste treatment methods	
	Recommendation	Do not allow product to reach sewage system. Disposal must be made according to local and national regulations.
	Un-cleaned packaging:	
	Contaminated packaging	Empty containers must be decontaminated before returning for recycling
	Recommendation:	Disposal must be made according to official regulations.
	WGK class (German Regulation)	Water hazard class 1 (Self-assessment): slightly hazardous for water
SECTION 14: Transport information		
14.1	UN-Number ADR, IMDG, IATA	Not regulated for transport.
14.2	UN proper shipping name: ADR, IMDG, IATA	Not applicable
14.3	Transport hazard class(es): ADR, IMDG, IATA	Not classified as dangerous in the meaning of transport regulation
14.4	Packing group ADR, IMDG, IATA	Not applicable
14.5	Environmental hazards:	Marine Pollutant: No
14.6	Special precautions for user	Not applicable
14.7	Transport in bulk according to Annex II of MARPOL73 /78 and the IBC Code	Not applicable
SECTION 15: Regulatory information		
15.1	Safety, health and environmental regulations/legislation specific for the substance or mixture	
	Labeling according to Regulation (EC)No 1272/2008	
	Hazard pictograms	Please refer section 2
	Signal word	Please refer section 2

Safety Data Sheet

In accordance with REGULATION (EU) 2020/878 of 18 June 2020

Amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)
